DOMINICAN UNIVERSITY of CALIFORNIA 1890

MASTER OF BUSINESS ADMINISTRATION STRATEGIC LEADERSHIP

FIND YOUR INSPIRATION

Dominican University's ***Master of Business Administration in Strategic Leadership (MBA-SL)*** is a 36-unit degree program. Designed for experienced managers, the Strategic Leadership program concentrates on leadership cultivation and development. You will grapple with salient and timely issues in the workplace, including team-building, diversity, corporate communications, ethics and social responsibility, and problem-solving.

ENVISION THE PROCESS

Our small class size, teaching and mentoring philosophy, and core values of study, reflection, community and service, create a distinctive experiential learning environment for our students.

PERSONAL ATTENTION FROM EXPERIENCED FACULTY: Our outstanding faculty is comprised of full- and part-time professors and practitioners who have accumulated years of experience in one of the most vibrant business centers in the world – the San Francisco Bay Area. Our location in San Rafael, California, allows students easy access to pursue internships and other activities in San Francisco, Silicon Valley, Sonoma and Napa counties.

OUTSTANDING FIELDWORK OPPORTUNITIES: Our students have opportunities to work with three School of Business and Leadership centers of excellence: the Institute for Leadership Studies, which is known for its Leadership Lecture Series and student leadership development programs; the Venture Greenhouse, a business accelerator that helps early-stage, socially- and environmentally-focused entrepreneurial ventures to achieve rapid growth and greater success in the marketplace; and the Environmental Finance Center West (EFCW), a federally-supported center that helps create and build sustainable economies at local, national and international levels. In addition, the North Bay Office of the U.S. Commercial Service, located on the Dominican campus, provides a unique venue for partnership opportunities with School of Business and Leadership faculty and students.

INTERNATIONALIZATION: We offer Executive Study Abroad (ESA) programs, which are designed for professionals who cannot spend a full semester abroad. ESA is an intense 9–10 day program that exposes participants to multiple cultures and global business topics. During their MBA studies, students may have the opportunity to visit countries in Asia, Europe, South America or Africa.

IMAGINE CAREER OPPORTUNITIES: Some of our graduates have launched their own successful companies, while many others can be found working in some of the best companies in California, the U.S., and Asia, including the "Big 4" accounting firms, regional and national financial institutions, and global management, marketing and advertising firms.
