DOMINICAN UNIVERSITY of CALIFORNIA 1890

MASTER OF BUSINESS ADMINISTRATION SUSTAINABLE ENTERPRISE

FIND YOUR INSPIRATION

Dominican University's ***Master of Business Administration in Sustainable Enterprise (MBA-SE)*** (GreenMBA) is a 48-unit degree program. This MBA is for leaders focused on developing financially viable, ecologically sustainable and socially just initiatives, as an entrepreneur or within established organizations. We take a collaborative, project-based approach in teaching students how to integrate their commitment to environmental preservation and restoration with sound business practices.

Our students have opportunities to work with three School of Business and Leadership centers of excellence: the Institute for Leadership Studies, which is known for its Leadership Lecture Series and student leadership development programs; the Venture Greenhouse, a business accelerator that helps early-stage socially- and environmentally-focused entrepreneurial ventures to achieve rapid growth and greater success in the marketplace; and the Environmental Finance Center West (EFCW), a federally-supported center that helps create and build sustainable economies at local, national and international levels.

ENVISION THE PROCESS

LEARNING WITH EXPERIENCED FACULTY: Our outstanding faculty is comprised of full- and part-time professors and practitioners who have accumulated years of experience in one of the most vibrant business centers in the world – the San Francisco Bay Area. Our location in San Rafael, California, allows students easy access to pursue internships and other activities in San Francisco, Silicon Valley, Sonoma and Napa counties.

INTERNSHIPS: Our students benefit from numerous, diverse internship opportunities with places such as U.S. Commercial Services, the Environmental Finance Center, Deloitte & Touche, Merrill Lynch, O'Donnell Financial Group, TransFair USA, U.S. Department of Commerce, and the World Affairs Council.

IMAGINE CAREER POSSIBILITIES: Some of our graduates have launched their own successful companies, while many others can be found working in some of the best companies in California, the U.S., and Asia, including the "Big 4" accounting firms, regional and national financial institutions, and global management, marketing and advertising firms.
