The **Bay Area OD Network** in partnership with **Dominican University of California's Institute for Leadership Studies** is pleased to invite you to a celebration and dialog session on leadership and the history of BAODN.

What: Dialogue on Leadership and the History of the Bay Area OD Network

When: **February 17, 2005**

Where: Creekside Room, Dominican University Campus

Time: 6:00p.m. – 8:30p.m.

You are being invited because you either generously gave your time early this year for one or two of our OD Dialogue sessions, are a member of the BAODN board, are one of those volunteers that generously devoted their time to ensuring that the network continues to foster, or have been recommend as a person interested in getting involved in making the network continue to thrive, and have some history with BAODN and perspective on OD.

At this event we would like to celebrate our coming together as a community of OD practitioners, get some ideas on the specific topic of leadership and capture the stories that abound in creating and sustaining the BAODN.

The dialogue is structured in two parts. The first part of the discussion will be future focused on leadership, mining the wisdom in the room around the needs of the newest generation moving into leadership roles in organizations and the community. The second part of the dialogue will be to capture through stories and visuals a historical perspective of the Bay Area OD network since its inception.

David Sibbet of The Grove Consultants International and one of the original members of BAODN (one of the sages and holders of the stories) has agreed to create the story as it unfolds in a storymap.

Please put this on your calendar and please RSVP to Gayle or Virginia by January 10, 2005. There will be lots of appetizers and cocktails. We're very excited about this, and look forward to seeing you there!

RSVP to Gayle at gmargolis@gmail.com
