SECTION 1: UNIVERSITY HISTORY & TRADITIONS

In the following pages you will be introduced to the rich history of Dominican University of California. We hope that as you learn more about this university and as you become more aware of the opportunities afforded to you as a Dominican student, you will find ways to connect with your student peers and to engage with the faculty and staff – all of whom are committed to student learning and development. There are many ways for you to be involved in your Dominican education and experience: academic research and engaged learning, student clubs and organizations, the honor societies, artistic endeavors, and athletics – just to name a few.

THE DOMINICAN IDEALS

The Dominican heritage intertwines a dynamic interrelatedness of the four active ideals of Study, Service, Community, and Reflection with the overarching concept of the spirit of truth – “Veritas.” These ideals developed as the Order of Preachers developed under Saint Dominic and his successors. Saint Dominic differed from founders of other religious orders of his time in that he sent his followers to engage in the life of the emerging universities of the 13th Century.

As his followers studied and engaged themselves in their academic and university experiences, they realized that there must be a spirit of prayer, contemplation and reflection which would connect the world of ideas, the life of the mind, and the spirit of truth, to the reality of the goodness of the Creator. This reflection and prayer could not be done in a vacuum, but must be done in and through the sharing of communal life. Coming full circle, the Dominicans were commissioned to share their knowledge and love of God with people through the service and ministry they perform. These Ideals are central in Dominican University of California’s quest for truth, beauty and the life of the mind.

THE DOMINICAN UNIVERSITY OF CALIFORNIA SHIELD AND MOTTO

The Dominican University of California shield portrays a dog carrying a torch in its mouth. This symbol originated from a dream attributed to the mother of St. Dominic: that she would bear a child who would set the world on fire with the wonder of his preaching. The name of the Dominican order in Latin, Dominicans, lends itself to the pun “Domini canes” (hounds of the Lord) – and a dog with a firebrand in its mouth became the symbol associated with the institution. Inscribed in the ribbon is the motto – Veritas fax ardens: “Truth a flaming torch.”

CAMPUS BUILDINGS

As you walk the campus, you will notice various and distinct architectural styles all reflecting different times in the University’s history. The names of these buildings pay tribute to the history of the Dominican Order and of the University. Click [HERE](#) for information and history of campus buildings.

BE ADVISED: Students should review the "[Campus Closure Policy](#)" and the "[Residence Hall Closure & Evacuation Policy](#)" and familiarize themselves with that information. In the event of an emergency or incident impacting the campus, the University may need to implement the protocol outlined in those policies.

FIRE EVACUATION PROCEDURES

Exit the building as safely and quickly as possible if instructed to evacuate or if:

- A fire alarm sounds
- You smell gas
- You smell or see smoke

Evacuate the building via the nearest stairway or exit (DO NOT use elevators). When possible, try to assist those with mobility issues or those in need of help. Once outside, gather at the evacuation assembly area. Always follow the directions of University personnel or emergency services (police/fire). COVID-19 HEALTH AND SAFETY INFORMATION

In preparation for the Fall 2020 semester Dominican University of California has developed a set of Health & Safety guidelines for students that include a framework and strategy for course delivery and guidelines for student and residential life that aligns with best public health protocols, is endorsed by the Marin Office of Public Health, and continues Dominican's educational mission. Our primary focus is implementing protocols and practices intended to keep our community as safe as possible. Students with questions or concerns should contact the University's designated COVID Coordinator at penguinprepared@dominican.edu.

Facial coverings have been shown to reduce the spread of the coronavirus. **All students, faculty, and staff are required to wear a facial covering/mask at all times while on campus.**

Students are expected to provide their own facial coverings. A limited supply of facial coverings/masks are available through the Student Health Center and after hours through Campus Security.

Resident Students: Students living in the residence halls must wear masks at all times in the building when not in their rooms (ex: hallways, laundry areas, lounges). Students are not required to wear a mask while in their assigned room.

The full set of Health & Safety guidelines can be found [here](#). Failure to comply with these Health & Safety protocols may result in a referral for conduct action.

NOTICE: The virus that causes COVID-19 is thought to spread mainly from person to person, primarily through respiratory droplets produced when an infected person coughs or sneezes. This spread is more likely when people are in close contact with one another; usually within 6 feet. Maintaining social distancing continues to be very important, and students, faculty, and staff are encouraged to follow CDC guidelines to ensure they are doing all they can to limit the spread of the virus. As a condition of enrollment, students are expected to take personal responsibility for promoting personal and community health and wellness by adhering to all University guidelines, policies, and protocols.

If you have questions about the health issues connected with COVID-19, contact the Student Health Center at studenthealthcenter@dominican.edu.

OUR MASCOT – THE PENGUIN

Why the Penguins? In the mid-1970's, students wanted a new mascot. The Dominican Sisters had a distinct presence on campus with their long black and white habits and veils. With a good sense of humor intact, the student body voted in the nickname Penguins, and the president approved it – making it official!

CAMPUS MINISTRY

Campus Ministry fosters the Dominican Values of study, service, reflection, and community; these form the basis for serving the religious and spiritual needs of a diverse student body. While anchored in the Catholic tradition, the staff employs an ecumenical approach in responding to all students striving toward enhanced spiritual maturity. Campus Ministry provides many opportunities for students of any religious tradition to participate in liturgies, retreats, community service projects, social celebrations, spiritual direction, immersion trips, and informal counseling. Dominican celebrates a Sunday liturgy and weekday liturgies, as well as other denominational religious services.

FOOD SERVICES

The Caleruega Dining Hall is the dining facility of the University; in addition there is a small café within Caleruega and a coffee cart in front of the library. Students with dietary restrictions are encouraged to speak with the Dining Hall staff to discuss food preparation and meal options. The meal plan schedule is Monday breakfast through Sunday Dinner (total of 19 meals per week); any combination of meals may be used, but unused meals do not rollover to the following week. Hours of operation are posted at Caleruega – these may change due to campus holidays or special events.

HOUSING AND RESIDENCE LIFE

The Department of Housing and Residence Life is committed to providing a unique and valuable experience outside of the classroom, where learning and personal growth take place. Residence Life staff are committed to aiding students and take a holistic approach to education outside of the classroom. The University provides on-campus housing for undergraduate students, with select units available for graduate students. Please refer to the website for additional information about residence life, including policies and procedures.

The Student Health Center and University Counseling Services work together to holistically support student health and wellness and may share information when jointly caring for a student.

HEALTH INSURANCE MANDATE

To ensure students have access to health care while attending Dominican University, we require that select students must have health insurance as a condition of enrollment. The University has partnered with United Healthcare Student Resources (carrier) and Gallagher Student Health (administrator) to offer a comprehensive policy. The following select students are required to have health insurance as a condition of enrollment:

SECTION 5: CODE OF CONDUCT

PREAMBLE

Dominican University of California (“University” or “Dominican”) is an academic community committed to study, reflection, community, and service in an inclusive environment that embraces diversity. As an academic community, the University has an interest in the education, safety, and welfare of all members of this community and in fostering an environment consistent with the educational mission, purpose, and processes of the University. When students voluntarily enter the University, they assume obligations of performance and behavior reflective of the University’s mission, processes, and functions. Expectations of students in the University community are higher than those of other citizens.

Students have rights and responsibilities, and the University has expectations regarding the behavior of its students, which extend beyond the classroom into all aspects of life. The Office of the Dean of Students is committed to educating students about civic expectations and prohibited conduct, promoting student learning and accountability, and facilitating the development of thoughtful, responsible, and engaged citizens. Through the Student Code of Conduct, the Office of the Dean of Students strives to address and reduce behavior that undermines academic success and detracts from the educational mission of the University; to provide timely support and resources for students; and to promote the health and safety of the University community.

Dominican University of California students are responsible for knowing the information, policies, and procedures outlined in this Student Code of Conduct. - 2.4. Students must check their Dominican email accounts and the University website regularly for updates to policies, procedures, and other information.

3. AUTHORITY AND JURISDICTION

3.1. **AUTHORITY OF THE UNIVERSITY**

The Dean of Students has full authority in the regulation of The Student Code of Conduct, student behavior and discipline for alleged violation of the Code or other appropriate policies, regulations, or rules. The Dean of Students may delegate such authority to University administrators or other officials as set forth in this Code or in other appropriate policies, regulations, or rules.

The Dean of Students (or designee) shall administer the provisions of the Code, oversee the day-to-day operations of the Office of the Dean of Students, and advise and train members of conduct boards and individuals designated as administrative hearing officers.

The Associate Dean of Students (or designee) serves as the Student Conduct Administrator responsible for developing policies for the execution of the student conduct system and the procedural rules for Conduct Hearings that are consistent with the provisions of Code.

3.2. **AUTHORITY OF THE CODE**

This Code is the University's primary policy governing student behavior. The provisions of this Code are not contractual covenants between the University and the student. The University reserves the right to change this Code at any time during a student's term of enrollment. Such changes will be communicated to members of the University community through various means. Each student is responsible for maintaining current knowledge of this Code.

An operating unit of the University (e.g., academic departments, University Housing, Athletics, International Education, Student Activities) may also establish conduct or professionalism standards for the student/departmental relationship, so long as those standards are consistent with the provisions of this Code or establish higher standards of conduct than those set forth in this Code. Disciplinary action pursuant to this Code does not preclude additional action by the operating unit.

Sanctions applied under this Code cannot be waived or modified by the operating unit. Sanctions may be imposed by the operating unit in lieu of sanctions applied in proceedings under this Code only when done in consultation with the Office of the Dean of Students. The University reserves the right to administratively rescind and void a student's admission offer prior to their first day of class if the student provided false information or omitted material information on their application, or if the student

violated the Code of Conduct.

3.3. JURISDICTION OF THE CODE

Students at the University are provided a copy of the Student Code of Conduct in the form of a link on the University website. Hard copies are available upon request from the Office of the Dean of Students. Students are responsible for reading and abiding by the provisions of this Code.

Violations of University policies, rules, and/or regulations or federal, state, or local laws may constitute a violation of this Code and result in disciplinary action. The Code of Student Conduct applies to behaviors that take place on campus, at University-sponsored events, and may also apply off-campus when the Office of the Dean of Students determines that the off-campus conduct affects a substantial University interest. A substantial University interest is defined to include:

- Any action that constitutes a criminal offense as defined by law. This includes, but is not limited to, single or repeat violations of any local, state or federal law;
- Any situation where it appears that the responding party may present a danger or threat to the health or safety of self or others;
- Any situation that significantly impinges upon the rights, property or achievements of self or others or significantly breaches the peace and/or causes social disorder; and/or
- Any situation that is detrimental to the educational interests of the University.

The Code may be applied to behavior conducted online (including electronic/social media). Students should be aware that online postings such as blogs, web postings, chats and social networking sites are in the public sphere and are not private. These online postings can subject a student to allegations of conduct violations. The University does not regularly search for this information but may take action if and when such information is brought to the attention of University officials.

The Code may also be applied to resident non-students, campers and high school bridge, extension, partner, dual- credit, and continuing education programs by contractual agreements. Visitors and guests of the University may seek resolution of violations of the Code of Student Conduct committed against them by members of the University community.

There is no time limit on reporting violations of the Code of Student Conduct; however, the longer someone waits to report an offense, the harder it becomes for University officials to obtain information and witness statements and to make determinations regarding alleged violations. Though anonymous complaints are permitted, doing so may limit the University's ability to investigate and respond to a complaint. Those who are aware of misconduct are encouraged to report it as quickly as possible (see "Reporting" - Section 5).

University email is the University's official and primary means of communication with students. Students are responsible for all communication delivered to their University email address.

3.3.1. Violation of Law and University Disciplinary Proceedings

Alleged violations of federal, state, and local laws may be investigated and addressed under this Code. When an offense occurs over which the University has jurisdiction, the University reserves the right to proceed under this Code prior to, concurrent with, or subsequent to civil litigation, criminal arrest, or criminal prosecution.

The procedures provided in this Code are not intended to be equivalent to the process of federal, state, or local laws and determinations of violations of this Code do not determine

whether criminal conduct has occurred. Determinations made or sanctions imposed under this Student Code of Conduct will not be subject to change because criminal charges arising out of the same facts giving rise to violation of University rules were dismissed, reduced, or resolved in favor of or against the criminal law defendant.

The University cooperates with law enforcement to the extent permitted by law.

3.3.2. Interim Suspension

The University reserves the right to interim suspend an individual upon notification that they are facing criminal investigation and/or Code violation(s) if the Office of the Dean of Students deems such suspension necessary for the safety and/or wellness of the University community.

4. STUDENT POLICIES

The University has developed and adopted the following policies and procedures to govern students at Dominican University of California in conjunction with the Student Code of Conduct. In some instances, the University has adopted broad policies reflecting a universal concern (ex: prevention of discrimination or harassment), which govern all members of the University community. Students are reminded that the University reserves the right to modify or amend policies at any time. Students should review any email announcement and [the Rights and Responsibilities](#) website for updated information.

4.1. ALCOHOL POLICY

- 4.1.1. Underage Possession/Consumption – Possessing or consuming alcohol by a person under the age of twenty-one (21).
- 4.1.2. Improper Possession/Consumption – Possessing or consuming alcohol where it is not permissible to do so, regardless of age.

Dominican University of California, in adhering to the laws of the State of California, permits the possession and consumption of alcoholic beverages only by those students who are 21 years of age and older. The University does not permit the possession or consumption of alcoholic beverages by those students under the age of 21. If alcohol is present in a residence hall room, all individuals must be 21 years of age or older, including guests and visitors. Alleged violations of these policies will likely result in the immediate disposal of all alcoholic beverages found and subsequent referral for conduct action.

Violations of the Alcohol Policy may result in a fine placed on the student account in addition to other

sanctions deemed appropriate. Fines will be assessed based on these guidelines.

Level One Violation - \$100

Level One violations are disruptive to the community, but usually are not serious enough to warrant action by civil authorities. Examples of a Level One violation include the drinking and/or possession of alcoholic beverages (on their person or in their room) by a student under the age of 21, or the possession of false identification for the purpose of purchasing/supplying alcohol.

Level Two Violation - \$200

Level Two violations represent health/safety risks, disruption to the community, and may warrant action by civil authorities. Level Two violations include, but are not limited to, threats of harm to self or others through excessive intoxication, possession or use of common source alcohol (ex; kegs), supplying alcohol to underage individuals, rude/offensive/abusive behavior.

Level Three Violation - \$500

Level Three violations are the most serious violations and often constitute illegal actions. If pursued by civil authorities, these violations may result in civil action being taken against the student. Examples of Level Three violations include, but are not limited to, forcing or coercing others to consume dangerous amounts of alcohol, extreme physical harm to others, significant property damage, or other actions requiring the presence of law enforcement officials.

4.2. CONTROLLED SUBSTANCE/DRUG POLICY (PLEASE SEE ADDENDUM FOR ADDITIONAL INFORMATION)

Dominican University of California students (and their guests) are expected to abide by all University policies, federal and state laws and mandates, and any city ordinances relative to the possession and use of drugs and drug paraphernalia (with the exception of medical/recreational marijuana, as articulated below). The use, possession, manufacturing, or distribution of marijuana, narcotics, heroin, or other controlled substances (includes paraphernalia) is prohibited. Violations of the Drug Policy will result in referral to the conduct process.

Medical / Recreational Marijuana:

Whereas the State of California does permit the use of marijuana, federal laws and regulations prohibit the possession, use, cultivation, distribution, or sale of marijuana on the premises of educational institutions that receive federal funding. As Dominican University of California is a recipient of federal funding, and in compliance with the Drug Free Schools and Community Act, the University does not allow the possession or use of marijuana on campus property for any reason.

Violations of the Controlled Substance Policy may result in a fine placed on the student's account in addition to any other sanctions issued. The funds will be directed to drug programming and education. Fines will be assessed based on these guidelines.

Level One Violation - \$100

Level One violations present a risk to the student(s) involved and may warrant action by civil authorities. Examples of a Level One Violation include, but are not limited to, the possession of drug paraphernalia or objects/materials that could be used as drug paraphernalia.

Level Two Violation - \$200

Level Two violations represent an egregious violation of policy and present both significant health and safety concerns. These violations are disruptive to the community and may warrant action by civil authorities. Examples of a Level Two Violation include, but are not limited to, the possession and/or use

of any controlled substance or illegal drug (regardless of quantity) including seeds and/or residue, and/or illegal use/sharing of prescription or other legal drugs.

Level Three Violation - \$500

Level Three violations are the most serious and may lead to University expulsion and/or be reported and pursued by civil authorities. Examples of a Level Three Violation include, but are not limited to, possession of large quantity and/or the actual or attempted sale; distribution, cultivation, or manufacture of any controlled substance or illegal drug and/or paraphernalia.

4.3. AMNESTY POLICY

- 4.3.1. For Reporting Parties: The University may choose to provide amnesty to Reporting Parties who may be hesitant to report incidents to University officials because they fear that they themselves may be accused of minor policy violations, such as underage drinking, at the time of the incident. Educational options may be explored, and conduct records may be maintained, but no disciplinary sanction will result.
- 4.3.2. For Those Who Offer Assistance: To encourage students to offer help and assistance to others, the University may pursue a policy of amnesty for minor violations when students offer help to others in need. At the discretion of the Office of the Dean of Students, amnesty may also be extended on a case-by-case basis to the person receiving assistance. Educational options may be explored, but no conduct proceedings or discipline will result.
- 4.3.3. For Those Who Report or are Witnesses to Violations: Students who are engaged in minor violations but who either choose to bring related serious violations by others to the attention of the University or serve as witnesses to another report of violation(s) may be offered amnesty for their minor violations. Educational options may be explored, but no conduct proceedings or record will result. Abuse of amnesty can result in a decision by the Office of the Dean of Students not to extend amnesty to the same person repeatedly.
- 4.3.4. Safe Harbor: The University believes students who have a drug and/or addiction problem deserve help. If any University student brings their own use, addiction, or dependency to the attention of University officials and seeks assistance, outside the threat of drug tests or conduct sanctions, a conduct complaint may not be pursued. A written action plan may be used to monitor cooperation with the Safe Harbor program by the student. Failure to follow the action plan may nullify the Safe Harbor protection and campus conduct processes may be initiated.
- 4.3.5. Amnesty to Student Organizations: In circumstances where an organization is found to be hosting an event where medical assistance is sought for a member or guest, the organization (depending upon the circumstances) may be held responsible for violations of the Alcohol and Drug Policy. However, the organization's willingness to seek medical assistance may be considered in determining a sanction for any violations of policy.

4.4. PARENTAL NOTIFICATION

Dominican is committed to fostering the holistic development of all students. Part of the development process entails students being autonomous in their decision-making and their critical thinking about, and reflecting on, their choices and actions. However, there are times when choices and actions pose a significant health risk to the student or place the student in harm's way; or worse yet, endanger the welfare of the campus community. If a student chooses to act in a way that endangers themselves and/or puts the campus community in harm's way, the University reserves the right to contact

parents/guardians to discuss concerns and explore possible resolutions. Parental notification may also be utilized discretionarily by administrators when permitted by FERPA or consent of the student.

4.9. SMOKING POLICY

Smoking (including, but not limited to cigarettes, cigars, e-cigarettes, pipes, hookahs, or vaporizers, is not permitted on the Dominican campus (with the exception being designated smoking areas). 4.11. CAMPUS ACCESS POLICY

Dominican's campus is not generally open to persons who are not members of the Dominican University of California community (faculty, staff, students, alumni). Public participation in activities involving the use of University facilities and property is permissible through one of five avenues:

- Renting Dominican facilities through a documented contract
- Explicit invitation to activities unambiguously open to the general public (ex: athletic events or public lectures)
- Implicit invitation (ex: use of walkways/roads generally available to the public)
- Participation in University-sponsored or sanctioned programs (such as continuing education or athletics department programs)
- Private invitation as the guest of a specific member of the Dominican community.

The University reserves the right to restrict the general public's access to specific buildings/areas and to determine who can and cannot use its facilities or be present on its property.

4.12. DEMONSTRATION POLICY

The University has an atmosphere conducive to genuine understanding and mutual respect among all members of the Dominican community. Open and honest communication is an essential contributing factor if such an atmosphere is to remain a reality. Demonstrations will be permitted as a mode of free expression of opinion so long as they are orderly and the rights of others are respected. Demonstrations or protests which in any way infringe upon the rights of others or which disrupt the normal educational process of the University cannot be tolerated. If the University Administration determines that a demonstration or protest is disruptive and/or is in violation of the rights of others, appropriate action will be taken.

4.13. COMPLAINT & GRIEVANCE POLICY

The grievance and complaint resolution policy and procedures outlined in this document are intended to respond to students on the following specific matters:

- where there is a grievance regarding the actions/behavior of an employee,
- where there is a perceived violation of policy or procedure on the part of an employee,
- where there is a complaint or grievance not resolvable through existing procedures.

Any student who wishes to file a grievance or register a complaint using this policy is encouraged to first contact the Associate Dean of Students by completing this [grievance & complaint form](#) so that the matter can be documented. Upon receipt of the form, the Associate Dean can assist the student in directing the matter to the appropriate person for follow-up action

In the case of an event outside the reasonable control of the University, some or all instruction for all or part of the academic year may be delivered remotely or via a hybrid model. Tuition and mandatory fees have been set regardless of the method of instruction and will not be refunded in the event instruction occurs remotely or via a hybrid model for any part of the Academic Year. The required payment of tuition and fees shall apply even if the Student is not satisfied with the education received from Dominican.

4.15. PERSONA NON-GRATA POLICY

Violation of Dominican's stated policies, procedures, or community standards may result in an individual or organization being declared persona non grata ("person not welcome") and removed from the University. Persona non grata is defined as a person or organization whose behavior is such that the University does not allow them access to University property, services, or programs. Considerations in determining this status may include, but are not limited to, whether the individual or organization poses a threat to themselves, others, and/or University property, if they have disrupted University programs, services, or activities, if they have violated specific facility policy, or if they have interfered with the educational mission of the University.

Once an individual or organization has been declared persona non grata, they may not return to campus without express written authorization from the University Administration. If it is determined that an individual or organization who has been declared persona non grata is on Dominican's property without proper authorization, they will be considered to be unlawfully trespassing and may be removed by the appropriate law enforcement officials. The University reserves the right to take any necessary legal action against a person or organization declared persona non grata and found trespassing on University property. Regardless of whether an individual or organization has been declared persona non-grata, anytime an individual is deemed to have violated a criminal law, the individual may be charged and referred to the criminal justice process.

An individual or organization who belongs to the University community and believes they have been declared "persona non grata" improperly may submit a written appeal articulating their rationale to the Dean of Students, who will review the appeal and communicate a final determination, in writing, to the individual or organization affected.

4.16. PARKING POLICY

It is the responsibility of the person parking their vehicle to read and follow the instructions of all parking/traffic signage. Please note that the University and the San Rafael Police Department strictly enforce parking.

There is no warning prior to a vehicle being towed. Repeat parking violations may also result in a referral to the conduct process, which may result in additional fines and/or sanctions including permanent loss of campus parking privileges.

Vehicles parked in the following restricted areas will be tagged with a violation sticker AND/OR TOWED at the vehicle owner's expense:

- In front of neighborhood homes adjacent to campus
- At a red curb or in a loading zone (yellow curb)
- In a time restricted zone for longer than the posted time

- In handicapped parking spaces without displaying proper license or placard
- In any area where a designated permit is required (includes Acacia Avenue)
- In a numbered residence hall space other than the one assigned to you
- In a driveway, fire lane, or in front of a fire hydrant
- In a pedestrian walkway or path
- On a lawn or on any landscaped area
- On any other no parking designated area

Residence Hall Parking Guidelines (on-campus)

Residence hall parking spaces (those with numbers painted in the stall) are assigned to resident students. Vehicles parked in any of these spaces will have specialized resident parking decals visibly posted at all times. Resident students with assigned spaces parked elsewhere on campus are essentially taking up two spaces and may be cited if not parked in their designated numbered space. Vehicles illegally parked in any residence hall space will be tagged with a violation sticker and/or towed at the owner's expense.

Townhome Parking Guidelines (townhome units)

Students living in the townhomes are not assigned parking spaces; it is the responsibility of the residents to determine who will park in the garages. There is no parking in the driveways (in front of garage doors) at any time.

4.17. POLITICAL ACTIVITY POLICY

The University affirms and celebrates that education is an active, ongoing process whereby individuals become aware of social, economic, political, and legal issues that influence their lives and their environment. As part of its dedication to active citizenship, Dominican encourages all members of the University community to exercise their civic rights to participate as individuals in the political process.

As a tax-exempt entity, the University is prohibited by federal law from participating in or attempting to influence campaigns for any elective public office or any political initiative. The University may not endorse a candidate or ballot proposal, provide or solicit financial or other support for candidates or political organizations, or establish political action committees (PACs). As such, use of University facilities and resources (official University stationery, seal, email, etc.) in support of a political candidate, party, referendum or PAC that could give the appearance that the University is supporting one candidate or position over another is prohibited.

Political Activity Policy for Student Organizations:

All registered student organizations, and student groups, must comply with the Political Activity Policy found in this Handbook. Endorsement of a particular candidate by a registered student organization is not permissible and the University will not register student organizations that have as a goal the support of a particular political candidate. No politicians are to be invited to campus for any reason without express permission from the University President. Student organizations funded by the University are not permitted to obtain a separate and distinct tax identification number.

4.18. POSTER POLICY

No posters, flyers, or other notices should be placed on doors or windows, either inside or outside a building; but instead should be placed on appropriate bulletin boards on campus with permission from appropriate offices. All posters must be hung with painter's tape or pushpins so as not to damage property. The University reserves the right to remove any posters deemed to be offensive in nature, or

those advertising events and/or products not in line with the Student Code of Conduct.

4.19. PHOTOGRAPHY & USE OF LIKENESS POLICY

The University reserves the right to take and use photographs, videos, and electronic images of students, visitors, and guests taken on University property or at University-sponsored events for internal and external marketing and promotional purposes. Students and/or guests and visitors who object to having their photograph or image used by the University must contact the [Marketing department](#).

4.20. PSYCHOLOGICAL AND PHYSICAL HEALTH POLICY

The University is committed to ensuring that students are physically and emotionally well enough to be on campus without posing a risk to themselves or others in the University community.

There are occasional circumstances in which a student's psychological or physical condition must be addressed by the University. The student may be referred for a medical and/or psychological/psychiatric assessment and recommendation regarding the student's ability to remain on campus and/or continue in classes. The results of that assessment will assist the University in determining if and how the student will remain on/return to campus and/or classes.

Depending on the circumstances, a student may be allowed to remain on/return to campus and/or classes if they agree to follow articulated, recommended steps. If a student refuses to follow such steps, or if disruptive, dangerous, or otherwise unacceptable behavior continues, the University may take action to withdraw the student from classes. Examples of this type of situation include, but are not limited to, the following: in the judgment of the University, the student's condition could not reasonably be accommodated in the academic program, if the student was threatening to himself and/or others, and/or the student continued to engage in seriously disruptive behavior to others.

In such circumstances, the parents of the student and appropriate University officials with a need to know, including academic deans, may be notified due to the potentially serious nature of the situation. In addition, the Office of Financial Aid and the Business Services Office will determine on a case-by-case basis what, if any, impact there is to Financial Aid and the Student Account per Federal, State, and Institutional regulations and policies.

Questions regarding this policy may be addressed to the Office of the Dean of Students.

CARE Team

The CARE Team is a cross-functional Team that assesses, refers, and/or responds to students identified as demonstrating emotional distress in a coordinated and comprehensive manner with dignity and respect. Students may be identified to the CARE Team because of or in connection with, concerning behavior and/or reported violation(s) of University policy. For questions or information related to the CARE Team, contact: DU-CARETeam@dominican.edu.

The CARE Team's primary purpose is to make sure students are emotionally well enough to function academically and that students are safe to be on campus. This is accomplished by helping students connect with professional care providers in order to address and resolve potential behavioral and emotional difficulties. To that end, the CARE Team reserves the right to take certain actions as outlined above. The particular action taken in an individual situation depends upon the circumstances of the individual student's condition, and the CARE Team's assessment of the severity of the situation.

Anyone concerned about the mental health of a student or the safety of a student or the University community and would like the University to assist, please complete this [referral form](#). *If you have concerns about a member of the Dominican community, contact Campus Security at 415-269-6070. If you feel*

the situation is urgent or critical, please call 911 (9-911 from a campus phone).

4.21. HAZARDOUS MATERIALS POLICY

Dominican University uses many chemicals and substances that require special handling, storage, deployment and disposal in our chemical laboratory operations, maintenance, and cleaning functions. Federal regulations and our local OSHA authorities require that the campus implement a Hazard Communication Program to alert our campus to the presence of these substances and any potential risk of exposure. Should you see any procedures that appear questionable, products in use whose properties you question, or the mishandling of a chemical, please immediately bring the matter to the attention of a laboratory manager or supervisor and provide documentation in writing. The sale, manufacture, or unauthorized possession and/or maintenance of hazardous or toxic substances on University property is prohibited.

4.22. IDENTIFICATION CARD (PENGUIN PASS) POLICY

All Dominican University of California students are expected to obtain a Penguin Pass from the Information Technology Department. Students must carry their card with them at all times when on campus, and, when asked, should provide it to any University employee or agent (including Resident Advisors and Campus Security) acting in their official duty. Students should safeguard their Penguin Pass and should not give it to others.

4.23. VENDING, SOLICITATION, FUNDRAISING, AND DISTRIBUTION OF LITERATURE POLICY

Persons not employed by, not affiliated with, or not enrolled at the University may not vend, solicit, fundraise, or distribute literature in the workplace or on campus or at any University facility at any time for any purpose. Students, faculty, or staff wishing to vend, solicit, fundraise, or distribute information related to programs or groups associated with the University, should first consult with the Office of the Dean of Students so as to determine the most appropriate process and logistics.

4.24. MISSING PERSONS REPORTING POLICY

In compliance with the Higher Education Act and California law, Dominican has an established missing student notification policy and procedure for resident students. All students should provide contact information for a person to be notified in the event the student is reported as missing. This information is collected by the Office of the Registrar and kept in the student record, and resident students should also provide this information with their residence hall emergency contact form.

Should you have concerns about an individual who may be missing, please contact Campus Security, Housing & Residence Life, or the Office of the Dean of Students. The staff in these areas will assess the situation and take appropriate action.

If it is determined that a student for whom a missing person report has been filed has been missing for more than 24 hours, then within the next 24 hours, the University will take the following action:

- Notify the individual identified by the student to be contacted in this circumstance
- If the student is under 18 years old (and not emancipated), notify a parent/guardian
- If the student is over 18 (or under 18 years old and emancipated) but has not identified a person to be contacted, notify appropriate law enforcement officials.

4.25. FAILURE TO COMPLY

Failure to comply with the directives of University/law enforcement official(s) acting in the performance of their duties; failure to identify oneself to University/law enforcement official(s) when requested to do

so; failure to comply with sanctions imposed under this Code.

4.33. DISCRIMINATION, HARASSMENT, AND SEXUAL MISCONDUCT POLICY

Please see the complete and detailed [Discrimination, Harassment, Sexual Misconduct, and Retaliation Prevention Policy](#) for further information about prohibited discrimination, harassment, and sexual misconduct.

Dominican University of California is firmly committed to being a community in which students, faculty, and staff are consistently treated with both consideration and respect, and are protected from discrimination, harassment, and sexual misconduct. In accordance with federal and state law, University Policy prohibits discrimination or harassment based on:

- Age
- Color
- Ability (physical, mental, medical condition)
- Family Status (marital status, pregnancy, child-birth and/or related conditions)
- Gender Identity/Gender Expression
- Genetic Information
- National Origin/Ancestry
- Race/Ethnicity
- Religion/Religious Creed
- Citizenship status
- Sex or Sexual Orientation
- Political Affiliation
- Appearance
- Veteran/Military Status
- Domestic Violence Victim Status
- Any other status protected by law

Discrimination is defined as behavior that has the effect of excluding individuals from participation, denies the individual the benefits of, treats the individual differently, or otherwise adversely affects a term or condition of an individual's employment, education, living environment or participation in a University program or activity on the basis of the above listed classes.

Harassment includes, but is not limited to, epithets, slurs, derogatory comments or jokes, intimidation, negative stereotyping, threats, assault or any physical interference with the employee's normal work or movement. Harassment may also include written or graphic material placed on walls, bulletin boards or elsewhere on the Dominican's premises or circulated in the workplace that denigrates, shows hostility or aversion towards an individual or group because of the characteristics identified above.

Sexual Misconduct includes, but is not limited to:

- Non-Consensual Sexual Intercourse
- Non-Consensual Sexual Contact
- Sexual Exploitation
- Intimate Partner Violence (including dating or domestic violence)
- Stalking

4.35. HAZING

Acts likely to cause physical or psychological harm or social ostracism to any person within the University community, when related to the admission, initiation, pledging, joining, or any other group-affiliation activity. The express or implied consent of the victim will not be a defense. Apathy or acquiescence during hazing are not acceptable and are in violation of this Code.

4.36. VIOLENCE/ABUSE

Intentionally or recklessly causing (or threatening or attempting to cause) physical or emotional harm or endangering the health or safety of any person (including verbal abuse, threats, intimidation, and/or coercion).

4.37. RETALIATION POLICY

Retaliation, defined as any materially adverse action or behavior taken because of a person's participation in the student conduct process, is strictly prohibited. No individual will be penalized for reporting incidents of discrimination, harassment, or sexual misconduct.

5. STUDENT CODE OF CONDUCT PROCEDURES

The following Code of Conduct procedures shall be used to address reported violations of the student code of conduct where the responding party is a student at Dominican University of California.

5.1. REPORTING

Any individual interested in filing a report implicating the Student Code of Conduct should follow the instructions in the [online report](#). Those with questions or concerns regarding the Student Code of Conduct should contact the Associate Dean of Students, who will conduct a preliminary inquiry to determine if the report has merit:

Lorisa Lorenzo – Associate Dean of Students
50 Acacia Avenue | San Rafael, CA 94901
Office Location: Edgehill Mansion 2nd Floor
415-482-1989
lorisa.lorenzo@dominican.edu

Any individual interested in filing a report implicating the [Discrimination, Harassment, Sexual Misconduct, and Retaliation \(DHSMR\) Policy](#) should refer to this Policy. Questions or concerns regarding the DHSMR Policy, or to report a violation of this policy, may be directed to the Title IX Coordinator:

Jesse Andrews – Title IX Coordinator
50 Acacia Avenue | San Rafael, CA 94901
Office Location: Carriage House (behind Magnolia House)
(415) 482-1847
Jesse.andrews@dominican.edu or TitleIX@dominican.edu

IMPORTANT: Please be aware that if charges implicate the University's policy on Discrimination, Harassment, Sexual Misconduct, and Retaliation, they will be forwarded to the Title IX Coordinator, and addressed through the process outlined in that policy. More information about the DHSMR Policy is available in the Appendix.

5.2. RESOLUTIONS

5.2.1. Informal Resolution

Informal Resolution is used when the parties agree to resolve the matter through conflict resolution [mediation, restorative justice, etc.], or where the responding party accepts responsibility for violating policy, or when the Student Conduct Administrator can resolve the matter informally by providing remedies to resolve the situation.

It is not necessary to pursue Informal Resolution first in order to pursue Formal Administrative Resolution, and any party participating in Informal Resolution can stop the process at any time and request the Formal Administrative Resolution process. Further, if an Informal Resolution fails after the fact, Formal Administrative Resolution may be pursued.

5.2.2. Conflict Resolution

Conflict Resolution is an informal process, such as mediation or restorative practices, by which a mutually-agreed upon resolution of an allegation is reached. It may be used for less serious, yet inappropriate, behaviors and is encouraged as an alternative to the Formal Administrative Resolution process (described below) to resolve conflicts. The parties must consent to the use of Conflict Resolution.

Additionally, the Student Conduct Administrator determines if Conflict Resolution is appropriate, based on the willingness of the parties, the nature of the conduct at issue, and the susceptibility of the conduct to Conflict Resolution.

In a Conflict Resolution meeting, a trained administrator facilitates a dialogue with the parties to an effective resolution, if possible. Sanctions are not possible as the result of a Conflict Resolution process, though the parties may agree to appropriate remedies.

The Student Conduct Administrator maintains records of any resolution that is reached, and failure to abide by the accord can result in appropriate responsive actions.

Conflict Resolution is not the primary resolution mechanism used to address reports of violent behavior of any kind or in other cases of serious violations of policy, though it may be made available after the Formal Administrative Resolution process is completed should the parties and the Student Conduct Administrator believe it could be beneficial.

5.2.3. Admission of Responsibility for Alleged Violations

The responding party may admit responsibility for all or part of the alleged policy violations at any point during the resolution process. If the responding party admits responsibility, the Student Conduct Administrator makes a determination that the individual is in violation of University policy. The Student Conduct Administrator then determines appropriate sanction(s) or responsive actions, which are promptly implemented in order to effectively stop the harassment or discrimination, prevent its recurrence, and remedy the effects of the discriminatory conduct, both on the reporting party and the community. If the responding party only admits to part of the alleged policy violations, then the Student Conduct Administrator finds the responding party in violation of the admitted violations and the contested allegations will be resolved using Formal Administrative Resolution. Once a violation is admitted and a determination is rendered, that finding is not appealable. Sanctions may be appealed per the policy described below.

5.2.4. Negotiated Resolution

The Student Conduct Administrator, with the consent of the parties, may negotiate and implement an agreement to resolve the allegations that satisfies all parties and the University.

5.2.5. Formal Administrative Resolution

Formal Administrative Resolution can be pursued for any behavior for which the responding party has not accepted responsibility that constitutes conduct covered by the Student Code of Conduct, at any time during the process. Formal Administrative Resolution starts with a formal investigation.

If Formal Administrative Resolution is initiated, the Student Conduct Administrator will provide written notification of the investigation to the responding party at an appropriate time during the investigation. Typically, notice is given in advance of an interview unless an exigency exists, such as when providing advanced notice is likely to lead to the loss or destruction of evidence or could otherwise significantly impede the integrity of the investigation. Advanced notice facilitates the responding party's ability to identify and choose an advisor to accompany them to the interview.

Notification will include a meaningful summary of the allegations and will be made in writing and may be delivered by one or more of the following methods: in person; mailed to the local or permanent address of the parties as indicated in official University records; or emailed to the parties' University-issued email account.

Once mailed, emailed and/or received in-person, notice will be presumptively delivered. The notification should include the policies allegedly violated, if known at the time. Alternatively, the policies allegedly violated can be provided at a later date, in writing, as the investigation progresses, and details become clearer.

The University aims to complete all investigations within a sixty (60) business day time period, which can be extended as necessary for appropriate cause by the Student Conduct Administrator, with notice to the party/ies as appropriate. The University will make a good faith effort to complete investigations as promptly as circumstances permit and will communicate regularly with the party/ies to update them on the progress and timing of the investigation.

Once the decision is made to commence a formal investigation, the Student Conduct Administrator will initiate an investigation. Investigations are completed expeditiously, normally within ten (10) business days, though some investigations take weeks or even months, depending on the nature, extent, and complexity of the allegations, availability of witnesses, police involvement, etc. The University may undertake a short delay in its investigation (several days to weeks, to allow evidence collection) when criminal charges based on the same behaviors that invoke the University's resolution process are being investigated by law enforcement. The University will promptly resume its investigation and resolution process once notified by law enforcement that the initial evidence collection process is complete.

University action(s) are not typically altered or precluded on the grounds that civil or criminal charges involving the underlying incident(s) have been filed or that criminal charges have been dismissed or reduced.

All investigations are thorough, reliable, impartial, prompt, and fair. Investigations involve interviews with all relevant parties and witnesses, and obtaining and assessing available, relevant evidence, as necessary. All parties have a full and fair opportunity, through the investigation process, to suggest witnesses and questions, to provide evidence, and to fully review and respond to all evidence, on the record. The standard of evidence for determining a violation of the Student Code of Conduct is "preponderance of the evidence" – meaning it is more likely than not that a violation occurred.

If appropriate, witnesses (as distinguished from the parties) who are students of the University are expected to cooperate with and participate in the University's investigation and resolution process. Failure of a witness to cooperate with and/or participate in the investigation or resolution process constitutes a violation of policy and may be subject to discipline.

If appropriate, witnesses may be interviewed remotely by phone, video conferencing, or similar technologies if the investigator determines that timeliness or efficiency dictate a need for remote interviewing. Witnesses may also provide written statements in lieu of interviews, if deemed appropriate by the investigator, though this approach is not ideal.

No unauthorized audio or video recording of any kind is permitted during investigation meetings. If the Student Conduct Administrator elects to audio and/or video record interviews, all involved parties must be made aware of and consent to audio and/or video recording.

The Student Conduct Administrator does not meet with character witnesses, but may accept up to two (2) letters supporting the character of each of the parties. Such letters must be provided to the Student Conduct Administrator prior to the report being finalized, otherwise the parties have waived their right to provide such letters.

Any evidence that the Student Conduct Administrator believes is relevant and credible may be considered. The Student Conduct Administrator may exclude irrelevant or immaterial evidence and may choose to disregard evidence lacking in credibility or that is improperly prejudicial.

Formal rules of process, procedure and/or rules of evidence, such as those followed in criminal or civil court, are not used in Student Conduct proceedings.

After completing the investigation, the Student Conduct Administrator writes a comprehensive investigation report summarizing the investigation and all evidence, including whether the evidence supports a finding of a policy violation. The Student Conduct Administrator bases the determination(s) on the preponderance of the evidence, i.e., whether it is more likely than not that the responding party violated policy. The responding party may admit responsibility for all or part of the alleged policy violations at any point during the resolution process. If the responding party admits responsibility, the investigator makes a determination that the individual is in violation of University policy. The Student Conduct Administrator determines the appropriate sanction. Previous disciplinary action of any kind involving the responding party may be considered in determining the appropriate sanction, because the University uses a progressive discipline system.

The Student Conduct Administrator [or appropriate designee] informs the party of the determination within 2-3 days of the resolution. Notifications are made in writing and may be delivered by one or more of the following methods: in person; mailed to the local or permanent address of the parties as indicated in official University records; or emailed to the parties' University-issued email account. Once mailed, emailed, and/or received in-person, notice is

presumptively delivered.

The notification of outcome specifies the finding for each alleged policy violation, any sanctions that may result which the University is permitted to share pursuant to state or federal law, and the rationale supporting the essential findings to the extent the University is permitted to share under state or federal law. The notice will detail when the determination is considered final and will detail any changes that are made prior to finalization.

The notification of outcome also includes the grounds on which the parties may appeal and the steps the parties may take to request an appeal consideration of the findings and/or sanctions. Please see “Appeals” for further information.

5.2.6. Interim Measures

In instances where the Office of the Dean of Students believes there to be a current and on-going threat to the health, safety, or general well-being of students, interim measures may be implemented to ensure the normal operation of the University. The Office of the Dean of Students will deliver notification of all interim measures implemented to the appropriate party(ies) via electronic mail and/or physical letter. In some instances, the interim measure may become permanent if deemed appropriate measures after the Student Conduct Hearing. The University will use the least restrictive interim measures possible to ensure the continued safety and health of the reporting party and/or the campus community.

Interim Measures include, but are not limited to, the following:

- Referral to Health Services: counseling, medical, or other.
- Interim University and/or Housing Suspension: A student may be denied access to the campus (including the residence halls and class participation/attendance) and/or all other University activities or privileges for which the student might otherwise be eligible as determined appropriate by the Office of the Dean of Students. The interim suspension does not replace the regular resolution process, which will proceed on the normal schedule, up to and through the Student Conduct Hearing.
- Housing Relocation: A Reporting or Responding party may be offered the opportunity to move. Such relocations will be for no longer than the Student Conduct Hearing unless there becomes a need to make the relocation permanent.
- No Contact Directives: An articulation of specific contact limitations, generally between the parties.

5.2.7. Appeals

A request for an appeal of the Administrative Disposition findings and/or sanctions is subject to the grounds outlined below. All original sanctions imposed remain in effect through determination of the appeal, and both parties should be timely informed of the status of request for appeal, the status of the appeal consideration, and the result of the appeal decision. Requests for Appeal must be submitted in writing to the Office of the Dean of Students within five (5) business days of receipt of the Administrative Disposition. Appeal requests are limited to the following grounds:

- 5.2.7(a) A procedural or substantive error occurred that significantly impacted the outcome of the hearing (e.g. substantiated bias, material deviation from established procedures, etc.). A summary explaining the error must be included with the request for an appeal.

5.2.7(b) To consider new evidence, unavailable during the original hearing or investigation, that could substantially impact the original finding or sanction. A summary of this new evidence and its potential impact must be included with the request for appeal. If an appeal is successfully granted on this ground, the Appellate Officer may interview additional witnesses, if appropriate.

5.2.7(c) The sanctions imposed are substantially outside the parameters or guidelines set by the University for this type of offense or the cumulative conduct record of the responding party. A summary explaining the disproportion of the sanctions must be included with the request for an appeal.

The Appellate Officer will consider the request and all submitted summaries, evaluate the merit of a request for an appeal in light of the circumstances and the Student Code of Conduct, and make a determination on whether enough information exists to warrant an appeal review.

If an Appeal Review is Denied: the Administrative Disposition stands as-is.

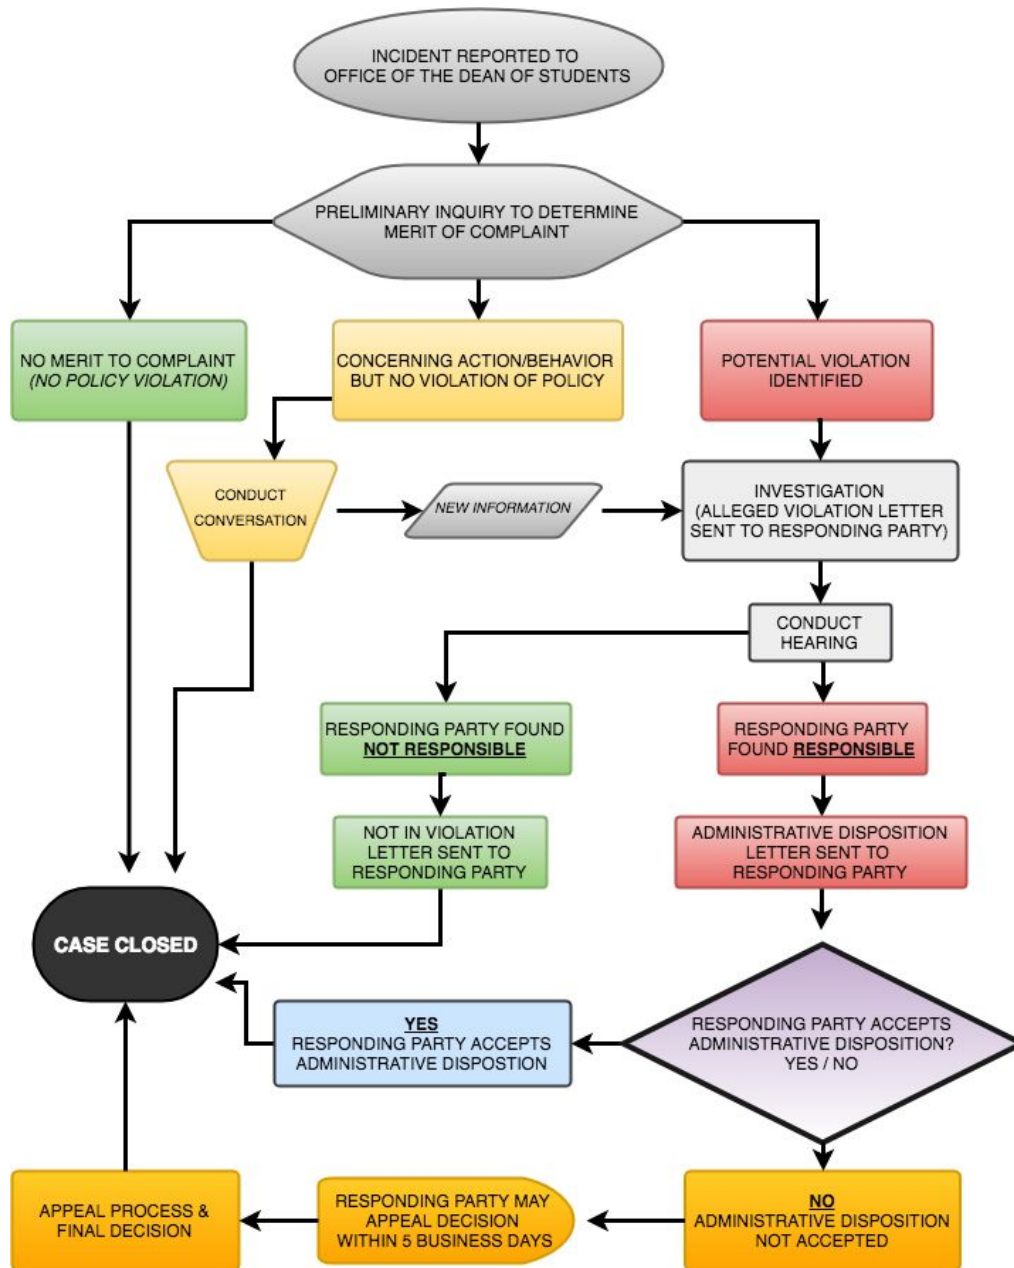

If an Appeal Review is Granted: the Appellate Officer will engage in a thorough review of the appeal request (including the submitted summaries), the original record (including the investigator's report), and any other relevant information, and will take one or a combination of the following actions;

- Uphold the findings and/or sanctions outlined in the Administrative Disposition;
- Modify the findings and/or sanctions outlined in the Administrative Disposition;
- Dismiss the findings and/or sanctions outlined in the Administrative Disposition.

The decision of the Appellate Officer will be considered final and binding for all parties involved.

(See Student Code of Conduct Process Map on next page)

6. DISCIPLINARY SANCTIONS

In instances of violations of the Student Code of Conduct, the responding party will receive written notification of their responsibility and determined sanctions. Violations of the Student Code of Conduct will result in the imposition of sanctions from the Student Conduct Administrator. Failure to complete sanctions imposed through the student conduct process will result in holds placed on a student's enrollment account, including but not limited to, registration, business services, athletics accounts.

Disciplinary sanctions will not be made part of the student's permanent academic record, but will be part of the student's disciplinary record. Sanctions imposed for violations of the Student Code of Conduct may include (but are not limited to):

7. INTERPRETATION AND REVISION

Any questions of interpretation or application of the Student Code of Conduct will be referred to the Dean of Students for final determination.

The Student Conduct Code will be reviewed annually under the discretion of the Office of the Dean of Students.

Students who encounter a difficult living situation should speak with their RA or the Housing and Residence Life Coordinator. Staff members can provide information and resources to students on resolving most roommate issues.

Students are not permitted to change rooms or allow another resident to move into an empty space in their room without proper authorization from the Housing and Residence Life Staff. No resident student shall allow anyone to live in his/her room who is not officially assigned to that space. Students found in violation of this policy may be subject to conduct sanctions.

RESIDENCE HALL CHECK-IN PROCESS

Residence Life Staff members are required to officially check-in students to residence hall rooms. It is the responsibility of students to follow the process/procedures outlined by the Department of Housing and Residence Life. Any individual(s) that occupies space without proper authorization will be asked to leave the premises until such authorization is granted, and may face conduct sanctions and/or financial penalty.

Students must be officially checked-in to their assigned space by the second instructional day, or the contract may be terminated and the space reassigned. By taking occupancy, the student accepts its condition and assumes responsibility to maintain the space and all common areas in which the assigned space is located in a clean, safe and undamaged condition.

At the time of check-in, the student must review the Room Condition Report (RCR) with an RA, identify any existing damage to the room, and sign and submit the document.

If the student does not complete the RCR, they may be held accountable and liable for ANY AND ALL DAMAGES discovered at checkout. Students will be held responsible for the damage and any cost associated with the repairs. The RCR form is a mechanism to ensure that any damages present at check-in will not be charged to the students residing in the room / suite.

REQUIRED CHECK-IN FORMS

Please be sure that all of the information on the forms noted below is complete and correct. Should changes need to be made to the information on these forms, the student should speak with their RA or the Assistant Director of Housing and Residence Life.

- Emergency Contact Form: This form provides the University with information on who to contact in the event of an emergency. There is also a space provided to alert personnel of any medications taken on an on-going basis or any allergies that might exist. This information is maintained in accordance with FERPA privacy regulations and is used only in the event of an emergency.

APPENDIX

ALCOHOL/DRUG EDUCATION AND SUPPORT INFORMATION

Dominican University of California, as a learning and social community, encourages students to interact and engage with others in a variety of different capacities. The alcohol and drug policy exists to allow the responsible use of alcohol by those of legal drinking age, and to prohibit the use of illegal drugs. Furthermore, it is the intent of the University to provide students with information and resources so that they can make healthy lifestyle choices.

Dominican is committed to fostering the intellectual, spiritual, ethical, and social development of its students. Consistent with these goals, Dominican expects the members of the campus community, including students, to respond responsibly regarding the use of alcohol and other drugs. Accordingly, the University has developed policies and programs focused on the following priorities:

- Federal and State laws governing the possession and use of alcohol and drugs;
- Promoting student health and wellness and the understanding that the abuse of alcohol or other drugs is inconsistent with that goal;
- Responsible drinking (moderation and mindfulness of the welfare of themselves and the entire community) on the part of students over the age of 21 who choose to drink, either off campus or at campus locations where alcohol is permitted;
- The understanding that it is illegal to provide alcohol to, and inappropriate to encourage alcohol use by, students not of legal drinking age;
- The principle that students have the right to choose to abstain from alcohol and other drugs, and as such, they should be free from pressure to engage in activities that are not in harmony with their principles;
- Education and support of the University community about alcohol and other drugs;
- Appropriate disciplinary and punitive action for students who violate alcohol and drug abuse policies.

The following information is based on the above priorities and with the understanding that students are adults who are expected to take personal responsibility for their own conduct, to support those students in the community who choose not to drink or use drugs, and to maintain standards of safety on campus.

CALIFORNIA LAWS - ALCOHOL

The State of California has clear guidelines about the consumption of alcohol. No person under the age of 21 may consume alcohol. No person may sell, furnish, or give, or cause to be sold, furnished or given away, any alcoholic beverage to a person under age 21 or to any obviously intoxicated person. No person under age 21 may purchase alcoholic beverages or possess alcoholic beverages on any street or highway or in any place open to public view. It is illegal to sell alcohol without a valid liquor license or permit. It is unlawful for any person to drink while driving, to have an open container of alcohol in a moving vehicle, or to drive under the influence of alcohol (intoxication is presumed at blood alcohol levels of .08%, or higher, and may be found with blood alcohol levels from .05% to .08%). It is illegal to operate a bicycle, water vessel, and water ski or aquaplane while intoxicated.

Penalties for a drunk-driving offense include alcohol education programs, monetary fines, imprisonment, and driver's license suspension.

CALIFORNIA LAWS - DRUGS

Under California law, first offenses involving the sale and possession for sale of amphetamines, barbiturates, codeine, cocaine, Demerol, heroin, LSD, mescaline, methadone, met amphetamine, morphine, PCP, peyote, Quaalude, Psilocybin, and marijuana are felonies carrying prison terms of seven years or more. Manufacture of illegal drugs may result in prison terms of twenty years or more. Penalties are more severe for offenses involving manufacture or distribution of illegal drugs by convicted felons and for distribution within 1,000 feet of a school or university, within 100 feet of a recreational facility, to anyone in prison or jail, to anyone under eighteen by anyone over eighteen, or to a pregnant woman. Personal property may be seized if it contains drugs or was used in a drug transaction. The illegal possession of most of these drugs is also a felony (some may be felonies or misdemeanors depending upon amounts involved), carrying maximum prison sentences of up to seven years. The University has the responsibility to uphold Federal and California laws on campus grounds and at University-sponsored events held off-campus.

FEDERAL LAWS – DRUGS

Under federal law, distribution or possession with intent to distribute a controlled substance on University property requires a sentence enhancement of up to twice the prescribed sentence for the original offense, and at least twice the prescribed amount of parole time. In addition, a mandatory prison sentence of at least one year is imposed for any offense except possession of less than five grams of marijuana. Persons convicted of possession or distribution of controlled substances can be barred from receiving benefits from any and all federal programs (except certain long-term drug treatment programs), including contracts, professional and commercial licenses and student grants and loans. Health care providers are barred from receiving federal insurance program payments upon conviction of a criminal offense involving distributing or dispensing controlled substances. Property, including vehicles, vessels, aircraft, money, securities, or other items of value which are used in, intended for use in, or traceable to transactions that involve controlled substances in violation of federal law are subject to forfeiture to the government. Finally, aliens convicted of violating any state, federal, or foreign laws or regulations are subject to deportation and exclusion from entry into the United States.

The University may take action against students who are involved in the illegal use of alcohol and/or drugs off campus.

Medical / Recreational Marijuana:

Whereas the State of California does permit the use of marijuana, federal laws and regulations prohibit the possession, use, cultivation, distribution, or sale of marijuana on the premises of educational institutions that receive federal funding. As Dominican University of California is a recipient of federal funding, and in compliance with the Drug Free Schools and Community Act, the University does not allow the possession or use of marijuana on campus property for any reason.

HEALTH RISKS ASSOCIATED WITH ALCOHOL AND DRUGS

Alcohol/substance abuse can cause extremely serious health and behavioral problems, including short/long-term effects upon the body and mind. The physiological and psychological responses differ according to the chemical ingested, and although chronic health problems are associated with long-term substance abuse, acute and traumatic reactions can occur from one-time and moderate use. In general, alcohol and drugs are toxic to the body's systems, and contaminant poisonings often occur with illegal drug use. Mixing drugs or using synthetic substances can be lethal.

There are many documented risks associated with drug use (including inappropriate use of prescription drugs), affecting not only individuals, but also their families and friends. Drug abuse can lead to serious health and social problems, including short and long-term effects on the body and mind and one's learning ability and performance. In addition, drug use can affect academic, athletic, work performance, and can lead to violent or destructive behaviors. There is also a strong relationship between alcohol and other drug abuse and risk of inappropriate sexual behaviors. The health risks associated with alcohol and each of the major classifications of controlled/illegal substances are summarized below:

ALCOHOL: Influences the capacity to process information and make informed/appropriate decisions. Those impaired by alcohol may be at risk for sexual assault or other violent behavior. Motor skills and reflexes are impaired, making driving both illegal and dangerous. Long term drinking and alcohol abuse may cause physical harm to the body and may negatively impact actions and behaviors. One instance of overconsumption can result in alcohol poisoning, and may raise your blood alcohol content to the point that your body cannot process it effectively – leading to overdose, coma, and possibly death.

NARCOTICS: Used to dull the senses and relieve pain. The term refers specifically to opium and its derivatives (including synthetic substitutes). Narcotics can be swallowed, smoked, sniffed, or injected. Excessive use may cause drowsiness, respiratory depression, constricted pupils, and nausea, and may lead to more significant reactions such as shallow breathing, convulsions, seizures, coma, and possible death. The following are examples of, and slang names for, various narcotics: Hydrocodone, Morphine, Oxycodone (Oxy), Smack.

DEPRESSANTS: Designed to relieve anxiety, muscle spasms, and sleeping issues, they slow down one's physical and psychological responses. The most serious risk is toxic reaction or overdose, which causes death when respiratory, cardiac, and circulatory systems slow down and cease to function. Sedatives and anti-anxiety drugs can cause temporary psychosis, hallucinations, paranoia, interference with short-term memory, impaired judgment and motor performance. The following are examples of, and slang names for, various depressants: Ambien, Barbiturates, GHB, Liquid X, Rohypnol (Roofies), Valium, Xanax.

ABSTAINING FROM ALCOHOL & DRUGS

Many students, including those at Dominican University of California, report never or rarely consuming alcoholic beverages and prefer to attend parties where alcohol is not served. Students who abstain from drinking and/or who choose not to use drugs should not be pressured by other students to engage in such activities. Dominican University of California encourages individual members of the campus community to consider the impact of alcohol or drug usage on their own life and on the broader community, and to think about the repercussions and health risks associated with their actions.

The University encourages anyone who chooses to drink to do so responsibly. Students and other members of the campus community should know their limits and take precautions to stay within them. Designating a driver who refrains from drinking has become a popular way to make sure that at least one person in a group does not drink and drive. Having a "designated driver" is an act of responsibility. In situations where a student's drinking impacts the campus community, disrupts the living/learning environment in the residence halls, or impacts the neighborhood, that individual is not acting responsibly and will be held accountable for their actions.

EDUCATION AND SUPPORT PROGRAMS

The University believes that awareness and education programs are critical to helping students make healthy choices and take responsibility for their actions. While respecting individual freedom, the University has the right and responsibility to educate students about the potential dangers – to both the individual and the broader community – associated with issues facing the student population, including alcohol and drug use and sexual violence, abuse, and misconduct. The University will respect the need for confidentiality in dealing with those who demonstrate problems with alcohol and other substances.

STUDENT HEALTH CENTER & UNIVERSITY COUNSELING SERVICES

The Student Health Center is committed to the provision of quality healthcare in an accessible, comfortable environment of acceptance. The emphasis is on partnering with students to provide services addressing mental and physical health, wellbeing, self-efficacy and academic success. The Student Health Center partners with community agencies to provide resources, support, and wellness programs for mental and physical health. Please visit the [Health and Wellness website](#) for details and resource contact information.

STUDENT AWARENESS PROGRAMMING

Throughout the year, various student groups may host programming and events focused on raising awareness regarding alcohol and drug use as well as sexual violence, abuse, and misconduct. RAs in the residence halls will often develop socials and deliver health/safety information to resident students. In addition, student groups affiliated with select academic programs often develop co-curricular activities or programs intended to raise awareness and educate their student peers.

ONLINE TRAINING MODULES

The University employs an online substance and sexual abuse awareness program that prepares students to confront and prevent serious campus problems. Students at Dominican complete the Safe Colleges online education and information modules that cover the following important topics:

- Behavior and Norms (alcohol, drug-use, the college “hookup” culture)
 - Sexual abuse, violence, and misconduct (and the association with alcohol/drug use)
 - Title IX and Campus SaVE Act training with a non-judgmental approach to effectively reach students.
- This program is required for all new students.

EDUCATIONAL PROGRAMS & SESSIONS

During Orientation, new Dominican students attend a sexual assault prevention education program. The program focuses on important topics such as binge drinking, healthy relationships, bystander intervention, and personal safety, and is based on best practices research from numerous fields of study.

Additionally, the University partners with community agencies (i.e.; Center for Domestic Peace) and works with student organizations to deliver ongoing and continual education throughout the academic year through active and passive programming, educational sessions, and awareness programs.
